

CHILDREN LEARN QUICKLY

This is truly a heart-warming story about the bond formed between a little girl and some builders. This makes you want to believe in the goodness of people and that there is hope for the human race.

A young family moved into a house next door to an empty plot.

One day a construction crew turned up to start building a house there.

The young family's 5-year-old daughter naturally took an interest in all the activity going on next door and started talking with the workers. She hung around and eventually the construction crew, all of them rough diamond types, more or less adopted her as a kind of project mascot.

They chatted with her, let her sit with them while they had coffee and lunch breaks, and gave her little jobs to do here and there to make her feel important.

At the end of the first week they even presented her with a pay envelope containing \$5.

The little girl took this home to her mother who said all the appropriate words of admiration and suggested that they take the money she had received to the bank the next day to start a savings account.

When they got to the bank the clerk was equally impressed with the story and asked the little girl how she had come by her very own wage packet at such a young age.

The little girl proudly replied, "I worked all last week with a crew building a house."

"My goodness gracious," said the clerk,

"And will you be working on the house again this week, too?"

The little girl replied,

"I will if those useless bastards at Bunning's ever bring us the f***** plasterboard!"

HOW DO COURT RECORDERS KEEP STRAIGHT FACES?

These are from a book called Disorder in the American Courts and are things people actually said in court, word for word, taken down and published by court reporters that had the torment of staying calm while the exchanges were taking place.
