

FLORIDA WOMAN STOPS ALLIGATOR ATTACK USING A SMALL .22 CALIBRE PISTOL

This is a story of self-control and marksmanship by a brave, cool-headed woman with a small pistol against a fierce predator. What's the smallest calibre that you would trust to protect yourself?

Here's her story in her own words:

"While out walking along the edge of a pond just outside my house in the Villages with my soon-to-be ex-husband, discussing property settlement and other divorce issues, we were surprised by a huge 12-ft. alligator which suddenly emerged from the murky water.

It began charging us with its large jaws wide open.

She must have been protecting her nest because she was extremely aggressive.

If I had not had my little Beretta .22 calibre pistol with me, I would not be here today! Just one shot to my estranged husband's knee cap was all it took.

The gator got him easily, and I was able to escape by just walking away at a brisk pace.

The amount I saved in lawyer's fees was really incredible and his life insurance was a big bonus!"
