

The Smell

Went for a walk with my new girlfriend and we saw dogs mating.

She said, "How does the male know when the female is ready for sex?"

I replied, "He can smell she is ready. That's how nature works."

We then walked past a sheep field and the ram was mating the ewe.

Again, my girlfriend asked, "How does the ram know when the ewe is ready for sex?"

I replied, "It's nature. He can smell she is ready."

We then went past a cow-field and the bull was mating with the cow.

My girlfriend said, "This is odd. They are really going at it. Surely the bull can't smell when she is ready?"

I said: "Oh yes, it's nature. All animals can smell when the female is ready for sex."

After the walk I dropped her home and kissed her goodbye.

She said, "Take care and get yourself checked out for Covid-19."

Surprised, I asked, "Why do you say that?"

She replied, "You seem to have lost your sense of smell."
