Brad was upset

Brad lives in Melbourne (Explains a LOT)........he was sick of the World, of Covid-19, those who hate China, global warming, species extinction, racial tension and all the rest of the disturbing stories that occupy the media headlines.

Brad drove his car into his garage at home, carefully sealed up around the windows and doorways of his garage, selected his favourite radio station and started his car to a slow idle.

Two days later, his neighbour realising she had seen no sign of Brad for a while, peered through the garage window to see Brad at the wheel of his car. Immediately she phoned emergency services. Police, Firies and the Ambulance arrived promptly.

After pulling Brad from his car and giving him a sip of water, he seemed as good as gold. Brad drives a Tesla. It now has a flat battery. He also votes Green.
