

financial advice >>>>>>>>>>

Not that any of us need any encouragement, but...

If you're not happy with your share portfolio, here is some financial information for you.

If you had purchased \$1000.00 worth of Apple shares one year ago it might now be worth \$49.00.

With Microsoft, you probably would have \$16.50 left of the original \$1000.00...

With Google you probably would have less than \$5.00 left.

If you had purchased \$1000 of Tesla shares you would have about \$49.00 left.

But, if you had purchased \$1,000.00 worth of Tooheys /& Moët wine one year ago, drank it all then turned in the cans/bottles for the aluminium & recycling REFUND, you would now have \$214.00.

Based on the above, the best current investment advice is to drink heavily and recycle.

Let people you care about know this and tell them to start now!
